WEEK OF DECEMBER 14, 2015

HGE

Headlines

- * The US Agency for International Development (USAID), a taxpayer-funded aid organization, is giving a \$100,000 federal grant to an Islamic charity banned in Israel for giving aid to Hamas and other terrorist organizations. (Another 'Israel-friendly' gesture!)
Hamas is a militant organization that does nothing for its citizens -- no schools, no universities, no employment and no healthcare
- * Is Anti-Israel Bigotry Prerequisite for a Job? President Obama has appointed second-generation anti-Israel activist, and former Iran deal negotiator Robert Malley as his 'senior adviser on the counterinsurgency campaign against ISIL.' Malley knows much about terrorism as his dad was close friends with Palestinian terrorist Yasser Arafat.
- * "It's no secret we don't agree [with the Americans] on everything," "If we would have implemented Kerry's plans for security, which he passed on to us over a year ago - then there would be mortar shells falling on Ben Gurion Airport today." Moshe Ya'alon
- * Poll: 67% of Palestinians believe stabbing attacks are justified. Two-thirds of Palestinians believe an armed intifada would serve the Palestinian national interest more than negotiations with Israel

* In an apparent effort to leverage Israel into negotiating a prisoner exchange, Hamas recently delivered an emotional written appeal purporting to be from slain IDF soldier Oron Shaul to his bereaved parents begging for his release.

* JNS.org - The Vatican issued an unprecedented declaration that the Jewish people are part of God's salvation without explicitly confessing Christ as their savior.

Get Ready for Hilary

- ❖ When an Iowa man broke into her riff with a question about how the country could confront a new wave of hate and fear, her response sounded less like that of a commander in chief than of a soothing self-help guru. "We've got to do everything we can to weed out hate and plant love and kindness," she told a crowd of several hundred.
- ❖ The lovey-dovey message seems surprising coming from a Washington veteran so battle-hardened that she often cites Eleanor Roosevelt's mantra about women in public life needing "skin like a rhinoceros."
- ❖ In Alabama, she told lawyers celebrating the 60th Anniversary of the Montgomery bus boycott that justice means "standing beside love." In Atlanta, Clinton promised black ministers she'd run on a "love and kindness platform." After Trump said he'd block Muslims from entering the country, her campaign quickly churned out a new catch phrase: "Love trumps hate."

RUSSIA: Friend or Foe?

Russia has begun supplying S-300 air defense systems to Iran. The S-300 is a series of Russian long range surface-to-air missile systems, first deployed by the Soviet Union in 1979, designed for the air defense of large industrial and administrative facilities, military bases, and control of airspace against enemy strike aircraft.

(Before the system becomes operational, Israel needs to take decisive action against the Iranian nuclear program.)

An Intifada to End all Intifadas

An opinion poll among the Arab residents of Judea, Samaria and Gaza found that an overwhelming majority supports continuing the ongoing terror wave to the bitter end.

A full 72% said they support continuing the "Al-Quds (Jerusalem) Intifada," as it has been termed, until it achieves its "goals".

The goal of the intifada terror war according to 48% of the Arabs is the "liberation of Palestine," indicating the conquest and occupation of all of Israel. No less than 44% of the Arab public expressed support for an armed intifada terror war using guns, 18% gave support to stabbing attacks, and 14% supported attacks throwing rocks at Israelis.

(When will the Israeli government realize that only the removal of all enemy population from Jewish land will bring peace to Israel? There are no "moderates" among them!)

Coming to America!

MILITANT ISLAM - COMING to AMERICA in a BIG WAY!

Saudi Prince Alwaleed bin Talal, a senior member of the Saudi monarchy, says he'll pledge his \$32 billion to advance the islamization of America.

The Saudis have spent billions already. 80% of the mosques build in America are Saudi funded. Islamic groups working to impose the sharia are largely funded by the Saudis.

(The WAHABI prince is not going to spend a cent to promote peaceful forms of Islam!)

Hezbollah

- ❖ Israeli officials estimate that one third of Hezbollah's active fighters have been killed or wounded in the Syrian civil war, Israeli news site Walla reported on Tuesday.
- ❖ According to the report, based on anonymous sources, between 1,300 and 1,500 Hezbollah fighters have been killed in combat in Syria, and an additional 5,000 have been wounded and are out of commission. Although Hezbollah – designated by the US and Israel as a terrorist group – is not open about its armed strength, some estimates say it could have up to 18,000 full-time and volunteers troops.

Shalom Friends

It's seems as though 2015 has zipped by as we approach 2016. It's been quite a year for Holy Ground Exploration (HGE) as well as us personally. HGE was birthed just seven short months ago, although we have been on the path to launching HGE for many years, without even knowing we were. As with the birth of any ministry there have been some birthing pains but they are followed by the joy of working for the Lord.

The Christmas season and closing of 2015 seems to cause many of us to check the rear view mirror. Many of you have taken this journey of faith with us and have provided an unbelievable amount of support through prayer, wise counsel and financial support. We can't tell you how much it has meant to us to be surrounded by so many great people. The Lord has placed many people in our lives in preparation for launching HGE. It's this very reason that we know the Lord has been planning HGE for a long time. He gave us pillars on which to stand before He asked us to step out in FAITH.

As you reflect on the year and get ready to close 2015 with ministry provisions, we ask that you consider HGE. As a new ministry HGE operates on a shoestring budget. The Lord does much with little but He also blesses those that bless Israel. We know there are many ministries vying for donations but prayer is free and very much needed. If you can't support HGE financially, please, support us in prayer; after all prayer is the most precious gift and the most powerful. To support HGE financially visit our webpage at www.holygroundexplorations.com or email Sharon Stolebarger at sharon@holygroundexploration.com. Donations can easily be made online via PayPal or checks. These donations are tax deductible for those in the United States.

Shalom

Dan and Sharon Stolebarger
