Headlines

Iranian Supreme Leader Ayatollah Ali Khamenei said Sunday that the United States is the Middle East's main enemy, with the "Zionist regime" a close second. Here is his twitter post:

Defending #Palestine is symbol of defending #Islam.

The Holocaust: Many Villains, Few Heroes. Could more have been done by Britain and the United States to end the genocide? Could they have bombed the rail lines to Auschwitz and other death camps? These are complex questions that have been asked but not satisfactorily answered since 1945.

Make America Great Again? Are we going to isolate ourselves? The US has been disengaging in the region under [President Barack] Obama and we want this to stop. Israel greatly needs the US in the region. Isolationism would leave the door open for Iran and Russia."

The World Blames the Jews but Never the Terrorists

- ❖ The answer to the question of what causes "a boy like ours to want to do such a thing" is not difficult: It is unadulterated hatred of the Jews, as taught to and inculcated in children all over the Muslim world, along with the accompanying refusal to accept a Jewish state in Israel. It is about the Islamic injunction to perform jihad against infidels and the ethics stemming from that injunction. When Arabs massacred Jews in the Hebron pogrom in 1929 there was no "occupation" to "resist." There were just Jews to hate. Nothing has changed, apart from the rhetoric.

Israel Will Destroy ISIS - If

- ❖ Israel will take immediate action against ISIS if the terror organization achieves an operational capability with chemical weapons, a senior military official told Channel 10 Wednesday evening, the Jerusalem Post reported.
- ❖ Israel is currently investigating the possibility that the Yarmouk Martyrs Brigade, an Islamic State (ISIS)-affiliated group fighting in Syria's civil war in the southern Golan Heights region, possesses chemical weapons. Several reports indicate that ISIS has used them in Syria on a number of occasions.
- ❖ If any terrorist organization in proximity to the Jewish state were to acquire a non-conventional weapon, whether it be Hezbollah, ISIS or Hamas, it would be perceived as crossing a "red line," the military official said, according to the Post. "If we see Islamic State approach an experimental or operational capability with chemical weapons, Israel will not stand by and watch. We will take appropriate action in order to thwart such activities," he stated.

Donny Donon

Quote of the Week:

"Compare the period of Nazi Germany to what is happening now in Iran and you will find many similarities, from a messianic leader to national unification via hatred and propaganda. The lack of firm action and the dialogue of the international community are very similar to those in Europe before the Second World War. There isn't time to wait and see what the Iran scenario will turn out to be." - Danny Danon, the new Israeli ambassador to the United Nations.

Israeli Ambassador to the United Nation Danny Danon slammed the UN Security Council's statement rejecting Israel's sovereignty in the Golan Heights. "At a time when thousands are being slaughtered in Syria, and millions of others have been made refugees, the Security Council chose to focus on the State of Israel - the only democracy in the Middle East".

Obama IS an Enemy of Israel

US President Barack Obama thwarted an Israeli military attack against Iran's nuclear facilities in 2014 by threatening to shoot down Israeli jets before they could reach their targets in Iran.

Following Obama's threat, Prime Minister Binyamin Netanyahu was reportedly forced to abort the planned Iran attack. The Netanyahu government took the decision to strike Iran some time in 2014 soon after Israel had discovered the United States and Iran had been involved in secret talks over Iran's nuclear program.

Holocaust Remembrance Day

- ❖ Since the early 1960's, the sound of a siren on Yom Hashoah stops traffic and pedestrians throughout the State of Israel for two minutes of silent devotion. The siren blows at sundown and once again at 11:00 A.M. on this date. All radio and television programs during this day are connected in one way or another with the Jewish destiny in World War II, including personal interviews with survivors. Even the musical programs are adapted to the atmosphere of Yom Hashoah. There is no public entertainment on Yom Hashoah, as theaters, cinemas, pubs, and other public venues are closed throughout Israel.
