# WEEKLY HEADLINES

Finally, the US has leadership willing to say that they will stop funding countries and people that hate America and call out "death to America". A pretty basic requirement that eluded previous US administrations for decades. - **Nikki Haley**

**UPDATE: TERRORIST FROM GAZA** - Destroyed over 7,400 acres of Israeli farmland and forest; burned some 10,000 tires; opened gunfire on the IDF; AND the media were calling them. "PEACEFUL PROTESTORS."

## **A MUST WATCH!**

# CEASEFIRE

Hamas leader Yahya Sinwar on Wednesday said there was no concrete ceasefire agreement yet with Israel, but warned that if hostilities resume the terror group could launch hundreds of rockets deep into the Jewish state.

Sinwar warned that if talks broke down Hamas would fire hundreds of rockets in Israel. "What the resistance launched in 51 days in the last war, it can launch in five minutes during any [future] Israel aggression," he said, referring to the 2014 conflict.

# ABBAS – HUH

**REPORT – Abbas backs demilitarized Palestinian state, says funds better spent on schools:** "Palestinian Authority President Mahmoud Abbas told a group of visiting Israeli academics that he preferred devoting funds to education and institutions than to an army, the Kan public broadcaster reported. "I support a state along the 1967 borders without an army. I want unarmed police forces with batons, not guns," Abbas reportedly said in Ramallah."

- Abbas says he opposes solution to refugee issue that would 'destroy Israel'

# TRUMP VS ABBAS

*Palestinian Leader Mahmoud Abbas claims he's going to take on Trump's as-yet unveiled peace plan at the UN by offering up his own "alternative" solution to the Israel-Palestinian conflict.*

Palestinian Authority President Mahmoud Abbas will unveil an "alternative" peace plan at the annual meeting of the United Nations General Assembly in New York in September, the PA's foreign minister said on Thursday.

Abbas will "announce the Palestinians' [categorical rejection of American-Israeli plans](#) aimed at liquidating the Palestinian cause, through the so-called 'Deal of the Century,'" the Palestinian news agency *Ma'an* reported.

# GREENBLATT

**TALK OF THE REGION – In a statement issued yesterday, Mideast envoy Jason Greenblatt** criticized Palestinian Authority President Mahmoud Abbas for seeking to **undermine** ceasefire talks between Israel and Hamas in Gaza: "The Palestinian Authority cannot criticize from the sidelines. The Palestinian Authority should be part of the solution for the Palestinians of Gaza and Palestinians as a whole. If not, others will fill that void," Greenblatt said. "Leadership is about making hard choices... It is time for the Palestinian Authority to lead the Palestinian people - all Palestinians - to a better future."

# UNRWA FUNDING

## TALK OF THE REGION – Trump administration to end U.S. funding to U.N. program for Palestinian refugees –

**by Karen DeYoung and Ruth Eglash:** "The Trump administration has decided to cancel all U.S. funding of the United Nations aid program for Palestinian refugees... In an announcement to be made within the next several weeks, the administration plans to voice its disapproval of the way the U.N. Relief and Works Agency, or UNRWA, spends the funds and to call for a sharp reduction in the number of Palestinians recognized as refugees." [[WashPost](#)]

# DROUGHT

## **Israel's natural water reserves lowest in a century**

Israel's natural water reserves are at a deficit of 2.5 billion cubic metres – the largest in 100 years, Israel's Water Authority said Sunday.

The extreme deficit is down to the drought which has been plaguing Israel for the past five years, with some of the country's streams and rivers on the brink of reaching historically low levels of waterflow.

A plan to deal with the crisis was approved by the government in June, in which the department of energy will construct two additional desalination plants that will pump some 100 million cubic meters of desalinated sea water into the lake's tributaries.

# PEACE

Abdelsalam al-Majali, 93, was the PM in 1993-1995. He signed the accord with Yitzhak Rabin.

The former Jordanian Prime Minister, who made "peace" with Israel, just exposed the truth about why Jordan did it, and this message must not be ignored. Unfortunately, it is NOT so that our two countries can live peacefully together long term. The Muslim world continues to hoodwink the non-Muslim world, and they will continue to do so until we learn to listen and talk in their language because they lie to us when they speak in English.

"If tomorrow we become stronger and can take Haifa by force, will we really decline just because we have an agreement with them?" His message is clear. "Peace" deals are only temporary when one is weak. When one regains the strength, they then go out to war to destroy, regardless of the deal.

# HISTORICAL REPLACEMENT THEOLOGY

HISTORY FOR DUMMIES...

**DEAR UNESCO...**

**THE AL-AQSA MOSQUE WAS BUILT ON TOP OF THE TEMPLE MOUNT, NOT THE OTHER WAY AROUND.**

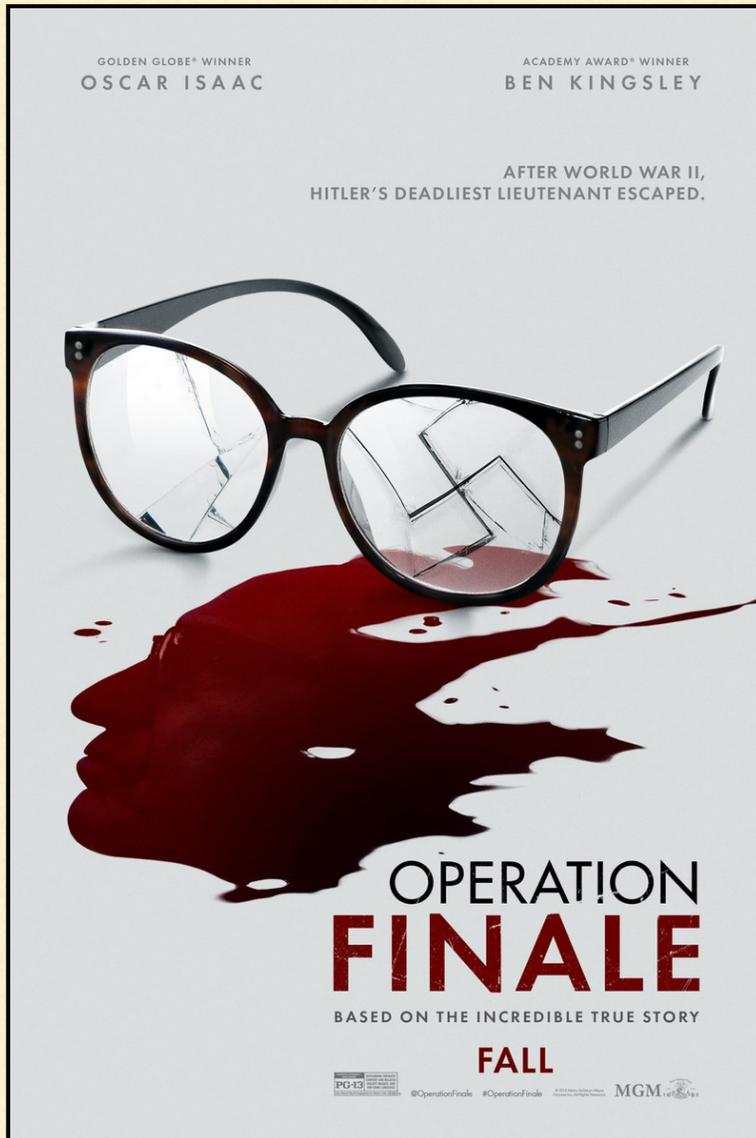

The UN has played a leading role in rewriting history as part of its anti-Israel agenda. A recent editorial in Christian media compared this to replacement theology and one rabbi agreed, noting that pro-Palestinian forces have taken this hated doctrine further than the Church ever had.

“The Palestinian Authority claims that after 100 years of archaeological research, they can verify that there is no evidence of any Jewish presence in Israel before Zionism,” Rabbi Spiro said. “How can they even begin to say that? The Israel Museum and many others are full of with thousands of artifacts that refute this claim. The Palestinian Authority is demanding Israel return the Dead Sea Scrolls even though they are written in Hebrew.”

# OPERATION FINALE

**'Operation Finale' and Israel's improbable transformation – by Thane Rosenbaum:** “The film [Operation Finale starring Sir Ben Kingsley] provides contemporary audiences with a reminder that targeted assassinations are not the only way to achieve international justice... Israel... could have clandestinely rid the world of Eichmann with a single bullet and avoided the condemnation it received for having abducted a citizen of a sovereign state... Operation Finale, the actual name the Israelis gave to the mission to apprehend Eichmann, was conceived as a coda to the Holocaust, a way of bringing justice to the Jewish people by putting the Holocaust itself on trial for the world to see.” **[CNN]**
