On Friday night, the Israeli military fired flares along the frontier after signs of a border breach. It said it later found damage to the separation fence in three locations.

While most experts do not trust China's fatality numbers, many leaders are worried that China is still not being forthright about what it really knows in regards to the novel coronavirus. "It could have been stopped in China before it started and it wasn't," Trump told "And now the whole world is suffering because of it."

UNITY GOVERNMENT

Against what appeared all odds, Prime Minister Benjamin Netanyahu and Blue and White Chairman Benny Gantz signed an agreement for a unity government. The breakthrough came late Monday shortly before the start of Yom HaShoah, Holocaust Remembrance Day.

Ynet reports that Blue and White will receive the ministries for defense, justice, aliyah and integration, culture and sports, finance, economy, communications, agriculture, strategic affairs, **tourism**, social equality and diaspora affairs.

ISRAEL RE-OPENING

Amid encouraging stats, Israel to ease lockdown. Ministers likely late Saturday to let many small shops, workplaces reopen, permit outdoor prayer for up to ten. The cabinet will convene on Saturday night to approve a series of measures aimed at rolling back of some coronavirus restrictions in order to restart the economy. With the statistics on the number of new cases and the number of people on respirators deemed relatively encouraging, many but not all stores will reportedly be allowed to reopen, and most workers in the manufacturing and service industries will be allowed back to work.

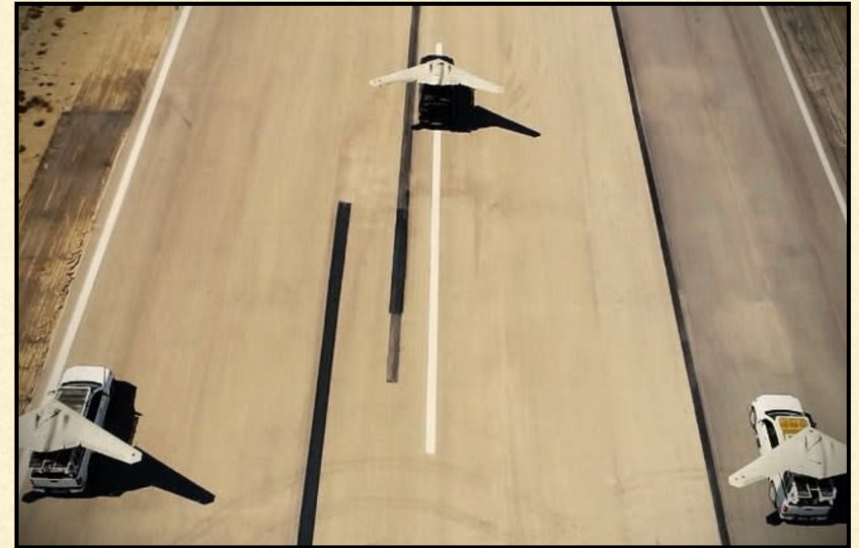

NEW PA LEADERSHIP

The popularity of PA Prime Minister Mohammed Shtayyeh and Ramallah Governor Lila Ranam ("The Iron Woman") are rising as they take the lead in the Palestinian response to the pandemic. Mahmoud Abbas hasn't been seen publicly for some time, fueling rumors about the health of the 84-year-old Palestinian leader.

IRANIAN DRONES

Iran's Defense Minister Brig.-Gen. Amir Hatami showed off the drones on Saturday. He said that one jet-powered UAV could fly at speeds of 900 km. per hour at an altitude of 12,000 meters. This would rival the best drones that the US and other countries are now using. These drones have a range of up to 1,500 km., he said, and can fly for several hours. It is a message to Israel, the US and their allies: We can reach you.

SYRIAN AIRSTRIKE

Israeli strike killed 9 Hezbollah members and foreign fighters, says Syrian war monitor

Israel neither confirmed nor denied responsibility for a Monday airstrike on a military post in the Syrian desert.

An Israeli airstrike in central Syria killed nine fighters, including six who were not Syrians and some who were loyal to the Hezbollah terror group, an opposition war monitor said Tuesday.

Israel has routinely communicated that Iranian troops operating near its borders is a red line that it will not tolerate.

2ND COMING

Lifeway Research has revealed that 98% of the church will not teach on anything end-time related as it is considered too controversial. Many pastors are apparently now having an "aha" moment due to the signs of the times. Will this moment continue once church services resume? 3 out of 4 pastors in the survey have noted that world and church events have meaning today: which includes the rise in apostasy, the love of believers growing cold, the decline in traditional morals, national conflicts, natural disasters, famines, and even the rise in anti-Semitism. Even if they are Tribulation events, they are casting a shadow on the Church Age.

So is a new day in the church approaching thanks to some kind of a wake-up call? Almost 25 years ago, the church-growth movement said teaching any kind of eschatology would not grow the church.

HMM – CHINA OR ISRAEL

Rely on Israel - not China!

Sen. Ted Cruz, R-Texas, is leading a bipartisan effort to wean the United States from its reliance on China for drugs and medical supplies by turning to the US ally Israel.

Cruz wrote on Twitter. "Our dependence on China for life-saving medications and treatments is deeply problematic. The senator argued that Israel "is not only our friend and ally, but also a global leader in medicine with which we already cooperate on exactly those issues."

NEW BIBLE OMITTS ISRAEL

A recently published translation of the New Testament has one glaring omission: it has purged all references to the place and the people of the Bible. Rabbi Tuly Weisz, who recently published a Hebrew-English version of the Torah, noted that omitting 'Israel' from the Bible is equivalent to failing to mention God.

24NYT, a Danish news service, reported on Sunday that the Danish Bible Society just published a revised translation of the New Testament. The new edition has many surprises, including a new name: the New Agreement. But even more shocking is that the "New Agreement has all but removed any references to Israel, whether it describes the land or the people.

6,000,000

So where was God during the Holocaust? He was probably right there alongside the victims weeping as he saw how evil His creations could be. We want free will, and He gave it to us! God did not allow the Holocaust to happen – mankind did. As Rabbi Akiva said: “All is foreseen, yet free will is given.”

“Let us conclude with the most famous Holocaust survivor of all time, Nobel Prize-winning writer and human-rights activist Elie Wiesel, who declared: “After the Holocaust I did not lose faith in God. I lost faith in mankind.”
