Donald Trump on Saturday claimed that almost all coronavirus cases in America are harmless and that the country will likely produce a vaccine by the end of the year.

While the coronavirus continues to spread out of control in Israel as the feared second wave hits, Iran is making no surprise of its intentions to retaliate against the Jewish State for a series of covert attacks on many of its secret facilities.

Erin O'Toole is running for the leadership of Canada's Conservative Party and says he will move Canada's embassy to Jerusalem if he defeats Justin Trudeau's Liberals in the next election.

# IRAN CENTRIFUGES

Nearly three quarters of Iran's main centrifuge assembly hall was destroyed by the recent explosion in Natanz, according to Institute for Science and International Security President David Albright. Albright said that this latest revelation is based on two new satellite overviews showing a much fuller picture than footage that was released last weekend and indicates that the vast majority of the centrifuge assembly hall was wiped out.

# IRAN

A fire broke out at a power station in southwestern Iran on Saturday. This was the latest in a string of recent fires and explosions, some of which have hit sensitive sites. Also on Saturday, a chlorine gas leak occurred at a unit of the Karoon petrochemicals plant near the port of Bandar Imam Khomeini on the Gulf, injuring dozens, the semi-official *ILNA* news agency reported.

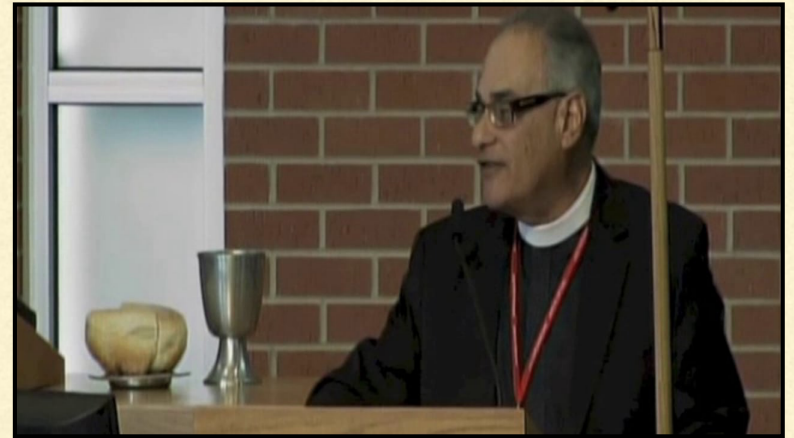

The latest events in Iran represent an escalation of tensions in the region. Figures in Iran have blamed Israel for the explosions, saying it may have been caused by a cyberattack. If that's so, Iran may try to respond with yet another cyberstrike of its own.

# BLAME THE JEWS

"The Rev. Rafael Malpica Padilla, executive director of ELCA Global Mission, said that one should be aware of the connection between the Israeli government's repressive tactics against Palestinians and those taking place against people of color in a number of localities around the United States," the article stated.

In the letter that the ECLA sent to the US congress, the aforementioned Rev. Padilla wrote, "As it has been reported, the kind of police tactics used to kill George Floyd are among those taught to a number of police departments that have taken part in training by Israeli police and military forces. "For example, 100 Minneapolis police officers received counterterrorism training from Israelis at a conference held in 2012."

# BLM – ISRAEL

Black Lives Matter (BLM) protesters took a U-turn into blatant antisemitism recently – that's if you don't count targeting Jewish businesses during the riots in Los Angeles as a function of antisemitism.

At a rally in Washington, D.C. lead by Harvard student Christian Tabash, protesters could be heard chanting their accusations that the Jewish state murders children. Amid calls alternating between "Black Lives Matter and "Palestinian Lives Matter," the protesters intoned, "Israel, we know you; you murder children, too."

# BACK TO THE TABLE

Palestinian Authority President Mahmoud Abbas told Russian President Vladimir Putin during a phone conversation on Wednesday that the Palestinians are “prepared to return” to the negotiating table with Israel under the auspices of the Quartet, which comprises the US, EU, UN and Russia.
