A top Palestinian official has reiterated his belief that acts of terrorism constitute a legitimate response to the recent normalization deal between the Jewish state and the United Arab Emirates.

Major US Jewish groups called for Twitter to take action against the account of Ayatollah Khamenei on Tuesday, following the Iranian leader's latest antisemitic social media outburst.

Hamas' deputy chief has given Israel a two-month window in order to implement the conditions of the cease-fire reached earlier this week between the sides. Khalil al-Hayya warned that Gaza-based terrorists were prepared to enter "a confrontational campaign, even if it will lead to the bombing of Tel Aviv."

SYRIA AIR STRIKES

The Syrian Observatory for Human Rights reported Tuesday that 10 combatants were killed in airstrikes attributed to the Israel Air Force near the Syrian capital of Damascus. The organization identified the dead combatants as three Syrian government troops and seven “non-Syrian militias loyal to Hezbollah and Iranians” in attacks that targeted Lebanese Hezbollah headquarters and Iranian militias south of Damascus and in the Daraa Governate in the south of the country bordering Israel. “The raids resulted in the destruction of Lebanese Hezbollah weapons and ammunition headquarters and ammunition belonging to Lebanese Hezbollah and Iranian Revolutionary Guard,” the organization said.

SYRIA AIR STRIKES II

A presumed Israeli airstrike killed 16 Iran-backed fighters in eastern Syria late Wednesday, a Syrian opposition-linked group said. Syrian state media reported that Israel conducted an attack on the T-4 air base near Palmyra at 10:23 p.m.

Wednesday, firing a number of missiles from the US-controlled al-Tanf region of eastern Syria near the Iraq border.

The Israel Defense Forces did not comment on the reported strikes, in accordance with its policy.

The reported strikes on Wednesday night came two days after Israel was said to have launched missiles at targets in Syria's south, killing at least two Syrian soldiers. A Syrian civilian woman was also reportedly killed when a Syrian military anti-aircraft missile struck her home.

SAUDI AIRSPACE

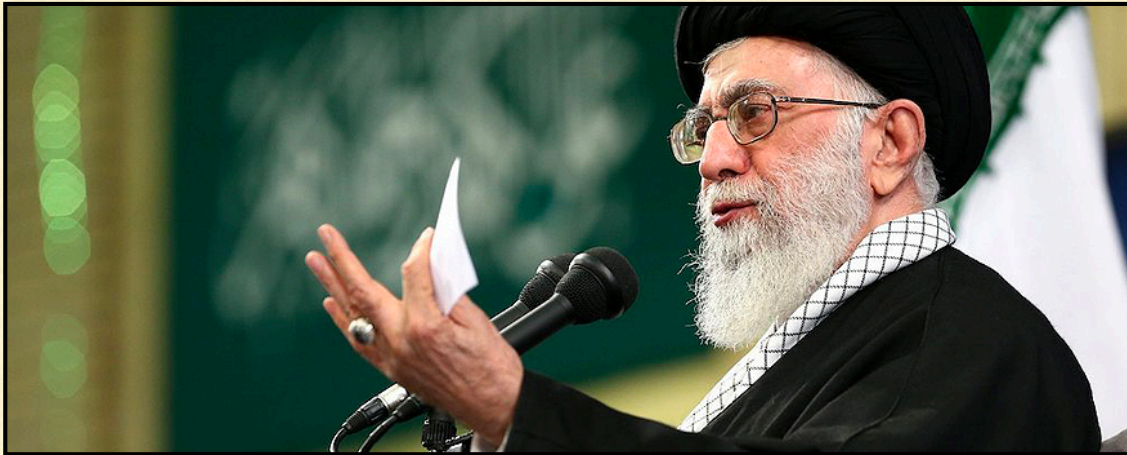

Saudi Arabia announced Wednesday that it is now allowing "all countries" to use its airspace for flights to and from the United Arab Emirates, which means an end to their boycott on flights to and from Israel flying over the Gulf state.

The state-run *Saudi Press Agency* issued a short press release saying that the Saudi General Authority of Civil Aviation "approved the request ... which includes the desire to allow flights coming to and departing from the United Arab Emirates to all countries to pass through the Kingdom of Saudi Arabia's airspace."

The Saudi move "will cheapen flights, it will shorten time, it will develop tremendous tourism and our economy," commented Prime Minister Benjamin Netanyahu.

ALI KHAMENEI

Iranian Supreme Leader Ali Khamenei is again under fire from Jewish groups for disseminating antisemitic – if not annihilationist – rhetoric on social media. In a widely panned tweet, Khamenei denounced the recent Israel-United Arab Emirates pact “as cruelty against the interests of the World of Islam,” and blamed “filthy Zionist agents of the U.S. – such as the Jewish member of Trump’s family.” The latter expression of hate was an apparent reference to Jared Kushner, who was instrumental in laying the groundwork for the Jerusalem-Abu Dhabi rapprochement.

Khamenei has in the past been slammed for describing Israel on Twitter as “a deadly, cancerous growth” that must be “uprooted and destroyed.” Earlier this year, he shared a poster that called for a “final solution” – the term used by the Nazis for their systematic slaughter of 6 million Jews during World War II – to Israel.

HERD IMMUNITY

Researcher says coronavirus infection rate should start dropping within weeks

A new study conducted by Ben Gurion University predicts Israel will reach a state of herd immunity against the coronavirus in the coming weeks, *Hamodia* reported Sunday.

Herd immunity occurs when a high enough percentage of the population has already contracted a disease and recovered from it, giving them enough antibodies in their systems so that the rate of new infections drops as more people gain immunity.

ISRAELI FACE MASK

Israeli start-up Conovia Ltd. engineered a unique reusable mask with antiviral properties that last over a year. In the wake of the COVID pandemic, Conovia applied its anti-microbial technology to a line of dual-layered face masks that neutralized bacteria and fungi on contact.

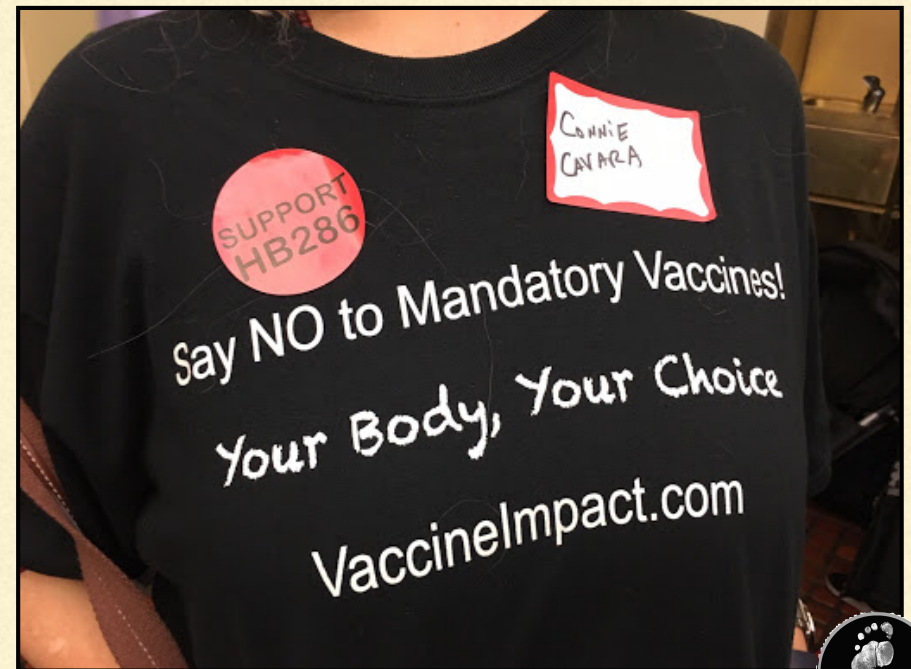

Relative to its competitors, the SonoMask offers superior protection, reusability, and comfort! "It's not just a mask ... it's a COVID-killer!"

COVID VACCINATIONS

VIRGINIA FORCED VACCINATIONS: Dr. Barrow predicted the government would be unlikely to force its way into private homes to vaccinate people.

"But," he said, "if you want to go to a sporting event, you want to go to the restaurant, you want to go into a public place, you got to show proof of vaccination. And so basically you're excluded until you can prove that you've been vaccinated."

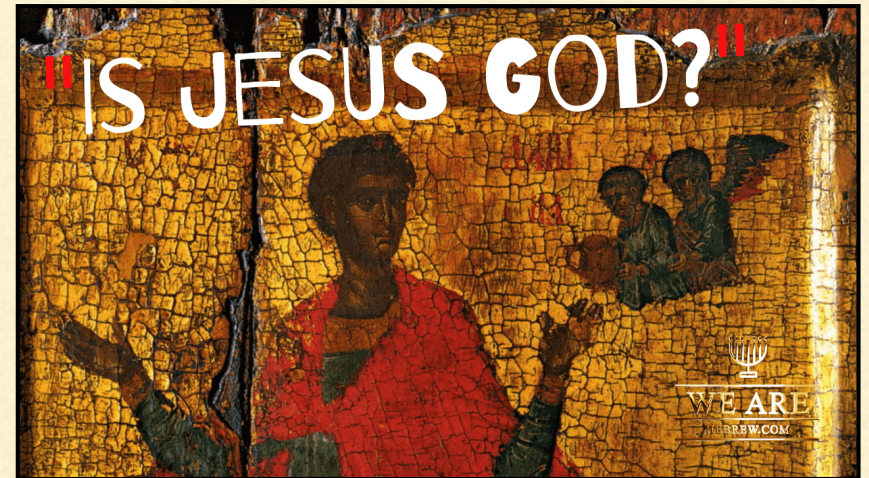

END TIMES ISSUES

Evangelicals are supposed to believe that Jesus is Lord, but it appears that nearly a third of them do not really understand what that means.

According to one recent survey, a whopping 30 percent of all evangelicals believe that "Jesus isn't God"...

More than half of American adults, including 30% of evangelicals, say Jesus isn't God but most agree He was a great teacher, according to results from the 2020 State of Theology survey.

Even though the Bible and traditional teachings of the Christian Church hold that Jesus truly existed as both man and God, among the key findings of the biennial State of Theology survey from Ligonier Ministries conducted with LifeWay Research, is that 52% of American adults believe that Jesus was a great teacher and nothing more.

AMIR TSARFATI

Shalom!

Please beware of "Israeli news live" YouTube channel! Pure Anti Semitic and anti Trump (basically anti American) propaganda that has moved now to attack me personally. I believe they are being well funded by powerful people within the deep state circles. This is the type of "Christianity" I warned you about on my latest update from last week!

May God protect us from these wolves in sheep clothing!

Awaiting His Return
